

SAFETY OF CLIENTS FUNDS/ASSETS

One of the most essential requirements in the financial industry is the safety of clients' funds. eBrókerház ensures the safety of clients' funds by following the following procedures:

ACCOUNTS WITH TOP TIER BANKS

eBrókerház provides banking and treasury services for its clients through world-class banking institutions. These banks are completely independent and do not endorse the obligations of eBrókerház to its customers.

SEGREGATION OF CLIENT FUNDS

Client Funds (including unrealized profits) are held in separate client money trust accounts with a Tier One EU Bank. eBrókerház maintains segregated client accounts to ensure that client funds are fully separated from eBrókerház' own funds at all times. eBrókerház DOES NOT use any client money for own margining or hedging purposes. Each client account has a unique code to ensure that it is used solely for client funding purposes. All client funds deposited with eBrókerház are kept completely separate from eBrókerház' own funds in accordance with strict policies and procedures.
